# Bovec

is the area of the upper **Soča Valley**, nestled deep in the **Julian Alps** and **Triglav National Park**. The main attraction of the area is the emerald **Soča river**, one of the most beautiful rivers in Europe, and it is no coincidence that the Disney fairy tale “The Chronicles of Narnia” was shot at this location. The Bovec area is a treasure trove of natural beauty, dazzling alpine peaks, friendly valleys, numerous clear rivulets and streams, gorges, and waterfalls. In Slovenia and the wider cross border area, Bovec **is the main centre of outdoor activities**.

The possibilities are endless: water adventures (kayaking, rafting, fishing), hiking and biking, zip line, paragliding and aviation, climbing and mountaineering; and in the winter: skiing, cross country skiing, sledding and snowshoeing. Numerous sports agencies provide a safe experience of a dramatically beautiful world.

Bovec offers a wide range of accommodations. Nature lovers will find their favourite spot in one of many **camp**s hidden on the banks of the Soča river, in **mountain lodges** or on **tourist farms** that offer local food and preserve the rural character of the destination. Young and young at heart will be thrilled over nice **hostels**; but if you are looking for privacy, you can hire neat mountain lodges, **apartments**, and **rooms**. Check out the great food at the **inns**, explore the **unique offerings** of the boutique accommodation, or simply indulge in the comfort of friendly **hotels**.

# Attractions and thematic trails

Triglavski narodni park

**TRIGLAV NATIONAL PARK** • The only national park in Slovenia, the paradise of unspoiled nature, boasts natural attractions and the peaks of the Julian Alps, among which reigns Triglav (2,864 m), the highest Slovenian mountain.

**UP TO KANIN WITH A CABLE CAR** • A circular cable car takes us to a height of 2,202 metres, where you can enjoy stunning panoramic views of the Alps and the Adriatic Sea. The final stop of the cable car station is the perfect starting point for tours to the surrounding peaks and for exploring the Karst highland.

**SOURCE OF THE SOČA RIVER** • One of the most beautiful Karst springs in the Julian Alps accumulates waters in the area of Jalovec, Šite, Travnik and Mojstrovka. The water springs from a cave with an underground lake through a narrow gorge that soon widens. A regulated and secure mountain trail leads to the water source.

Velika korita Soče

Kanin

**TRENTA LODGE** • Trenta Museum and Information Centre of Triglav National Park represent the cultural landscape, the nature and the history of life in Trenta. Amiable guides will conjure a special experience with their stories.

**MANGART SADDLE** • The road that leads to the Mangart Saddle and the vantage point at Belope ko Jezero Lake under the northern slope of the mountain is the highest mountain road in Slovenia. The Saddle is the starting point of Mangart Mountain Trail and a popular paragliding launch point.

**GREAT SOČA GORGE** • The wild gorges are one of the most beautiful natural sites on the Soča river and an important natural treasure of the Triglav National Park. The most numerous and most significant are located in the heart of Soča Valley. The naturally preserved Great Gorge below the village of Soča is 750 metres long and 10 to 15 metres deep.

Kluže

**KLUŽE FORTRESS** • A mighty fortress above the Koritnica Gorge, one of the most visited cultural sites in the Soča Valley, is an important monument of defence against the Turkish armies, Napoleon's army and attacks in World War I.

**ASSOCIATION 1313** • Brdo 37, 5230 Bovec • **GSM:** +386 41 507 445, +386 31 384 281 • **E:** 1313.bovec@gmail.com

Mangart

Prestreljeniško okno

**KRN LAKE** • The largest Slovenian alpine lake is located at an altitude of 1,391 metres. It is 400 metres long and up to 17 metres deep. The lake almost completely floods the basin at the foot of Krn, which can be admired right from the lake shore. An easy hiking trail from Lepena leads to the lake.

**BOKA WATERFALL** • Numerous waterfalls are popular destinations in all seasons. The mightiest is Boka Waterfall, which is the largest Slovenian waterfall and decreases 144 metres in depth; smaller, but even more scenic is Virje waterfall near the village of Plužna. The area of Log pod Mangartom, particularly rich with water and waterfalls, is rightly called a valley of a hundred waterfalls. In this area, Fratarca, Predelica, Gorejca, Nemčlja, and many other waterfalls are hidden in the slopes.

## THEMATIC TRAILS

- **Soča Trail:** The Soča Trail is a park trail that runs along the Soča river from its source to Bovec. It connects peaceful, mysterious parts of the Trenta and Soča valleys. Particularly interesting are picturesque hanging footbridges. A walk along the Soča Trail and a visit to the Trenta Lodge Information Centre offer an adventurous discovery of the Triglav National Park.
- **Alpe Adria:** Alpe Adria Trail connects the three regions with a total of 43 stages: Carinthia, Slovenia and Friuli - Venezia Giulia. Alpe Adria Trail leads visitors to the Soča valley from Kranjska Gora across Vršič and through Trenta to Bovec and past Log Čezsoški to Drežnica.
- **The Walk of Peace:** The Walk of Peace connects areas, people and the rich cultural and natural heritage along the former Isonzo Front. The most interesting open-air museums in Bovec are found in Log pod Mangartom, on Ravelnik and Čelo.
- **Prestreljeniški podi:** The trail starts at the final station of the Kanin cable car. The trail runs along the high mountain of Karst and is presented to hikers through descriptions on seven boards. Tops in the area, grazing, history, flora and fauna, and mountaineering are presented.

[www.logpodmangartom.si](http://www.logpodmangartom.si)*Log pod Mangartom and the valley of hundred waterfalls***Active holidays**

Numerous adventures are waiting for you in the wonderful alpine environment of Log pod Mangartom, Strmec and Predel. Spend your holidays walking around the valleys of Loška Koritnica and Moznica or hiking the many protected mountain trails on the mountains of Mangart, Jalovec, Jerebica, Rombon, and others. Adrenalin junkies can get their fix during wild canyoning in the Fratarca or Predilnica canyons or join the birds in the sky while paragliding. Explore the area on a bicycle! A special challenge is definitely the road to Mangart, the highest road in Slovenia, and every true biker wants to experience this royal ascent. Refresh yourself beneath the waterfalls and test your courage in the adventure park with friends and family!

**Winter fairy tale**

The sunny slopes of the small ski resort Encijan are popular with families and novices. Right next to it are several cross-country skiing trails, which make a perfect addition to a day in the snow. You can also discover the wider landscape on foot or with snowshoes. Icy shells on the waterfalls offer adventures to ice climbers and in the light of torches the sledges run into the quiet winter nights on the snowy slopes of the Mangart road.

**On the steps of history**

In Roman times, a road led through the valley from Aquileia to Noricum. Many armies walked through it and it saw the battles of the Soča front during World War I. The St. Stefan church with murals by Ivan Grohar is well worth the visit, as well as the military cemetery from World War I, and the closed mining shaft (Štoln) with an open memorial exhibition, which is also the starting point of the Walk of Peace. The entrance to the valley is guarded by the Predel and Kluže fortresses.

**Culinary treasure**

Try the traditional Bovec sheep cheese, a cornerstone of the local cuisine, which is still made in the pasture huts in the mountains and on the farms in the valley according to the traditional recipe. Enjoy a casserole in a mountain hut, and have a traditional dinner with 'čompe' and cottage cheese. You might enjoy roasted lamb or trout, and traditional krafi for dessert. There are also many restaurants where you can taste excellent international cuisine. A glass of spirits has never hurt anyone, but it can lift your heart high under the mountaintops! Bon appétit!

In addition to the hotel, motel and hostel, you can choose from several apartments, private rooms, a tourist farm, guesthouses and mountain lodges. You can also arrange to explore the area accompanied by a local tourist guide.
